

Levelized billing takes away the peaks and valleys in your electric bills, giving the ability to have a more level bill each month.

$$\text{Levelized Amount} = \frac{\text{Total prior month's billing} + \text{current month's bill} + \text{over/short amount}}{\text{Total Previous Month's Bill} + 1} + \frac{\text{Over/Short Amount}}{\text{Over/Short Factor}}$$

The Over/Short amount determines the Over/Short factor based on the following chart:

Amount	Factor
0 - 49.99	12
50.00 - 99.99	11.5
100.00 - 199.99	11
200.00 - 299.99	10.5
300.00 up	10

The requirements for levelized billing are as follows:

- A minimum of 12 months history at current location
- 5 credit rating and no collection charges in the past 12 months
- Removed from levelized billing if a collection charge is applied requiring customer to immediately settle account balance

I HAVE READ THE ABOVE INFORMATION AND HAVE DECIDED TO PARTICIPATE IN LEVELIZED BILLING. I UNDERSTAND THAT REMOVAL FROM THIS PROGRAM, EITHER AT MY REQUEST OR DUE TO NO LONGER QUALIFYING, REQUIRES THAT THE OUTSTANDING BALANCE BE SETTLED IMMEDIATELY.
